# Woodford Court

Architects Hillman Design Ltd and contractors Spencer Francis have created modern apartments to a high specification, making great use of light and space. Completing in February 2021, the development took just over 72 weeks to build at a development cost of £2,560,000.

Located in South Croydon, on the popular Pampisford Road, Woodford Court benefits from great links in to central London and offers off street parking. Each apartment has a contemporary interior with most boasting a terrace or balcony, complimenting the traditional exterior.
